

Daybreak Oil and Gas, Inc. to Acquire Reabold California LLC

SPOKANE VALLEY, Washington, October 21, 2021--Daybreak Oil and Gas, Inc. (OTC PINK: DBRM) ("Daybreak" or the "Company"), a Washington corporation, is pleased to announce that it has agreed to acquire Reabold California, LLC ("Reabold California") a subsidiary of Reabold Resources plc ("Reabold"), a United Kingdom Company listed on the AIM Market of the London Stock Exchange under the ticker "RBD".

Reabold California owns a 50% working interest and operates 10 producing wells in the Sacramento Basin in Northern California with proved reserves of 613,000 barrels of oil equivalent. After the transaction is completed, Daybreak will have 1,085,000 barrels of proved oil equivalent with a value of approximately \$17.0 million. Reabold California's production is approximately 70 barrels of oil per day. Combined, the production would be approximately 100 barrels of oil per day.

The acquisition will be an all-stock transaction where Gaelic Resources Limited, a wholly-owned subsidiary of Reabold Resources plc, will own up to 45% of Daybreak's common stock at closing. As part of the transaction Daybreak will also be raising approximately \$2.5 million through the sale of its common stock to fund development programs in both the Sacramento Basin properties as well as its San Joaquin Basin properties.

The transaction will require Daybreak Oil and Gas, Inc. shareholder approval and is expected to close in the First Quarter of 2022.

James F. Westmoreland, President and Chief Executive Officer, commented; "The acquisition of Reabold California, LLC is a transforming event for the Company. We look forward to developing the significant opportunities acquired with the Reabold California properties as well as continuing to develop our legacy properties. The shorter life but higher production volumes from the Reabold California properties combined with our longer life lower volume properties will create immediate positive cash flow for the Company. We will continue to build shareholder value through strategic acquisitions in the California market as well as seeking drilling opportunities in and around the two basins which we operate. Additionally, we will pursue opportunities in other geographic areas as they may arise. We look forward to having Reabold Resources as a major shareholder of the Company."

Daybreak Oil and Gas, Inc. is an independent crude oil and natural gas company currently engaged in the exploration, development and production of onshore crude oil and natural gas in the United States. The Company is headquartered in Spokane Valley, Washington with an operations office in Friendswood, Texas. Daybreak owns a 3-D seismic survey that encompasses 20,000 acres over 32 square miles with approximately 6,500 acres under lease in the San Joaquin Valley of California. The Company operates production from 20 oil wells in our East Slopes project area in Kern County, California.

Certain statements contained in this press release constitute "forward-looking statements" as defined by the Securities and Exchange Commission. Such statements can be identified by the use of forward-looking terminology such as "believe," "expect," "may," "should," "up to," "approximately," "likely," or "anticipates" or the negative thereof. These forward-looking statements are based on our current expectations, assumptions, estimates and projections for the future of our business and our industry and are not statements of historical fact. Such forward-looking statements include, but are not limited to, statements about our expectations regarding our financing, our future operating results, our future capital expenditures, our expansion and growth of operations and our future investments in and acquisitions of crude oil and natural gas properties. We have based these forward-looking statements on assumptions and analyses made in light of our experience and our perception of historical trends, current conditions, and expected future developments. However, you should be aware that these forward-looking statements are only our predictions and we cannot guarantee any such outcomes. Future events and actual results may differ materially from the results set forth in or implied in the forward-looking statements. The following factors, among

others, could cause actual results to differ from those set forth in the forward-looking statements: general economic and business conditions; exposure to market risks in our financial instruments; fluctuations in worldwide prices and demand for crude oil and natural gas; fluctuations in the levels of our crude oil and natural gas exploration and development activities; our ability to find, acquire and develop crude oil and natural gas properties, including the ability to develop the East Slopes Project and Michigan prospects; risks associated with crude oil and natural gas exploration and development activities; competition for raw materials and customers in the crude oil and natural gas industry; technological changes and developments in the crude oil and natural gas industry; legislative and regulatory uncertainties, including proposed changes to federal tax law and climate change legislation, and potential environmental liabilities; our ability to continue as a going concern; and our ability to secure additional capital to fund operations. Additional factors that may affect future results are contained in our filings with the Securities and Exchange Commission ("SEC") and are available at the SEC's web site <http://www.sec.gov>. Daybreak Oil and Gas, Inc. disclaims any obligation to update and revise statements contained in this press release based on new information or otherwise.
